

## **REMARKS**

Claims 1-10, 14—28 and 31-37 are pending in the present application, with claims 1 and 19 being independent. All Claims stand rejected under 35 U.S.C. 102(b) as being anticipated by Ceccarelli. Claims 1 and 19 are additionally rejected under 35 U.S.C. 112 paragraph 1 due to the presence of the word “non-electronic”, which, according to the Patent Office, is unsupported by the specification.

By the present amendment, independent claims 1 and 18 have been amended to delete the word “non-electronic.” Accordingly, the rejection under section 112 is obviated and should be withdrawn. Similarly, claims 1 and 19 have been amended to make clear that the static medium is cast is a physical structure that has holes formed through it, and that the dynamic regions are positioned inside the holes formed through the static regions. It is clear that the Ceccarelli reference does not teach or suggest this in any way. Based on the foregoing, Applicant respectfully submits that the remaining pending claims, as amended, are in condition for allowance.
